PATIENT PORTAL ANNOUNCEMENT

Sterling Family Practice is pleased to announce that we have a secure **Patient Portal** through *eClinicalWorks*, our new electronic records management system. The Patient Portal is a work in progress which will allow review of patient historical, demographic, laboratory and scheduled visit information. As the electronic health record functionality expands we plan to add more features to this new tool.

If you are interested in signing up for **Patient Portal** access, please do so by submitting your name and email address to Sterling Family Practice at sfp@lmgdoctors.com You will then be web enabled and receive an automatic e-mail confirmation of activation which will include your automatically generated sign-on information.

A recent enhancement to this capability is the ability to access your health records remotely using your mobile device through the *healow* app. The *healow* app is a secure app that helps you to manage your health information when you are on the go. This health and wellness online platform is available through the **App Store** and **Google Play** using this link https://mycw86.ecwcloud.com/portal11511/jsp/100mp/login_otp.jsp you can access information as well as download to your device

Direct any questions regarding the Patient Portal to the email above or if you prefer you can call (703) 421-7000 to speak to our friendly staff.

We look forward to continued expansion of person centered care,

Sterling Family Practice management Team
