Medical Records Release Policy and procedure!

Please complete form, incomplete will result in delay in processing

Request of Medical Records to be sent to another practice/office

In response to the Health Insurance Portability and Accountability Act (HIPAA) of 1996, physicians have been faced with greater complexities when releasing medical records. In an effort to protect patient confidentiality, as well as comply with government regulations, Sterling Family Practice has developed policies and procedures to insure that your confidential medical records are handled in a manner meeting all necessary guidelines.

Medical Records will be released only upon written request from the patient. Written requests must be in accordance with the Uniform Health Care Information Act.

Sterling Family Practice will only release records that were created and maintained by our doctors and clinic. We will not release records received from other clinics or providers.

The requirements for a valid authorization to release medical records are:

- In writing, dated and signed by patient
- Specifically identifies patient
- Specifically identifies the healthcare provider who is to make the disclosure
- Specifically identifies the information to be disclosed
- Medical records are provided by a third Party (Healthport) [click here](#) for more information
- Fill out electronic Record Delivery request form (*if you wish your record to be submitted electronically*)

Note: *an authorization which affects a medical record in which information concerning the performance or results of HIV (AIDS virus), STD testing, substance abuse, and mental or psychiatric treatment must specifically authorize the release of such test and/or treatment information or it will be excluded from the records release.*

- Specifies the name, address and institutional affiliation of the person or entity to whom the information is to be disclosed

Except for authorizations to provide information to third-party payers, authorizations are valid for 2 years.

Revocation must be in writing; an authorization can be revoked at any time unless:

- Needed to secure payment for services rendered; or
- Other substantial actions have been taken in reliance on the authorization (e.g. a claim has been made under a life insurance or disability policy)

HealthPort eDelivery

HealthPort eDelivery for the secure and expedient electronic transfer of protected health information

The HealthPort® Release of Information (ROI) process and functionality enables your facility to log and capture images of medical records and securely transfer them through our state-of-the-art confidential electronic portal HealthPortConnect™. No matter where you are in the electronic continuum (paper, hybrid or 100 percent electronic), we facilitate the successful electronic delivery of protected health information (RHI) to requesters.

Streamlined Process for Secure Electronic Delivery:

- 1. Request** – Patient completes a HIPAA-compliant request for medical records at your facility and provides an email address where an availability notification can be sent.
- 2. ROI Process** – HealthPort ROISM staff logs and verifies the request, then retrieves the requested medical records and digitally captures the documents into HealthPortConnect.
- 3. Notification** – The patient receives an email with instructions detailing how to access their records through HealthPortConnect.
- 4. Retrieve** – The patient accesses HealthPortConnect, to retrieve their records. Easy-to-follow instructions allow patients the ability to view, print and save copies of the requested records.

Meeting a Meaningful Use Core Objective with HealthPort

Our time-tested processes and Meaningful Use (MU) certified eSmartlog^{®*} technology, the logging, tracking and reporting component of our ROI software offering, provides an accelerated turnaround time, reduces costs associated with postage and paper and helps you meet the following Meaningful Use requirement:

Upon request, provide patients with electronic copies of their health record. For hospitals, at least 50 percent of the electronic copies must be provided within three business days of the request and include, at a minimum, diagnostic test results, problem list, medicating list, medication allergies, discharge summary and procedures.

Patient provides email address when requesting record

Request is facilitated through the HealthPort ROI Process

Record available via HealthPortConnect

Patient retrieves record electronically
